Dear Administrator,

The Professional Development Institute (PDI) has been offering quality online courses for over 13 years in which time we have successfully trained over 30,000 teachers. All PDI courses are approved for graduate-level extension credit through the University of San Diego.

Our online courses are research-based, self-paced, affordable, and offer strategies teachers can use immediately in the classroom. Our courses are primarily utilized for professional growth and salary advancement.

All PDI courses are written by content experts. All PDI online instructors have a master's degree or higher, have significant classroom teaching experience, have successfully completed the PDI Instructor Training Program, and are approved by the University of San Diego. Our online courses are instructor-led and interactive (participants are required to interact and communicate with their instructor as well as other participants). All assignments are posted on an online Message Board unique to each particular course. The instructor evaluates and assigns a letter grade for every assignment based on the standards in the course rubric.

All PDI courses may be taken for graduate-level extension credit through the University of San Diego (USD). Our three-unit graduate-level extension courses are equivalent to 45 hours of training. Our one-unit graduate-level extension courses are equivalent to 15 hours of training. USD is accredited by the Western Association of Schools and Colleges (WASC). USD is also approved to meet credential requirements by the California Commission on Teacher Credentials.

If you require further information about PDI, please contact us at (714) 666-1760. We look forward to working with you and your teachers.

Thank you,

Caryn Doti Chavez
Director
